## Fields - Standard Ultimate pitch X 4

### Format

- 4 groups of 4 teams
- Round robin format; 30 min games
- Cup round robin; 45 min games
- Prizes awarded to 4 cup winners

### Captain's agreement

In the case that 2 teams opposing each other are unable to field 3 females, an agreement between the captains can be reached as a compromise to play 5/2. 6/1 may be sought only in the case of injury.

At no time should a point be played without a female on the field

### Director's clause

A team capable of fielding 3 females shall not be put in the position where they must lower their ratio to compensate for another team's inability to meet the ratio requirements.

In any case, a team may choose to field 5/2 versus 4/3 but will be penalised by a ½ point every point they do not have 3 females. If they choose to field 6/1 versus 4/3, they will be penalised by a full point.

The director's clause will therefore make it more difficult for a more male and apparently more athletic team to win without employing females on the field. By losing a point every point, a team fielding 6/1 can only hope to draw 0 v 0 in the best scenario. In this case the director will deem the team meeting the ratio requirements the winner by default.

## Rules

WFDF 11th edition rules. Captains should endeavour to ensure all the players are acquainted with the rules. If they are to referee themselves they should know the rules!
